Early Spring 2017

Year by Year

2016 was another very good and very busy year in Westside Resource Centre. By the end of the year the resource centre was home to 12 different organisations, all of whom are working in the Community & Voluntary sector. In addition, the centre has 4 resident community groups and these have a wide membership of people from all across the Westside area. Meanwhile, our meeting room facilities continue to be used by a great range of agencies and charities for all kinds of classes, courses, meetings and training sessions.

During the course of the year we also had a very active calendar of community events. The monthly Open Door gatherings continued apace whilst we also hosted larger events such as Westside Arts Festival, Culture Night, Social Inclusion Week and Westside Christmas Market & Family Day. We are looking forward to the changes and challenges of 2017 and we hope to continue and improve our services during the year.

Please check out our Facebook page and website for further details or call in to the centre if you are passing by.

The UN Sustainable Development Goals

Over the course of 2017, Westside Resource Centre will be running a regular piece about the Sustainable Development Goals on our website. The Goals were adopted by the 193 members of the United Nations General Assembly in September 2015 and apply to all countries, including Ireland.

Each month, we will look at a different goal (or goals) and provide some background information from United Nations sources. We hope that this project will help to explain the Sustainable Development Goals and give the reader an understanding of the actions which have been proposed. Some of the issues addressed in the Sustainable Development Goals are truly global and indeed daunting at first glance. However, we can all play our part in making the Goals a reality.

Achieving the targets will require considerable political will and cooperation on the part of leaders worldwide. As active citizens, it is important that we keep ourselves informed about the Sustainable Development Goals and ensure that they remain high on the agenda until the targets have been met.
